THE *Energy* OF LIFE
CONSUMER ELECTRONICS

FOTEC

As Fotec, we develop next-generation charging technologies powered by solar energy for electric vehicles. Through smart energy management systems, we provide energy infrastructure for modern cities, advanced industrial complexes, urban use, intercity stations, and personal charging needs. From energy production to distribution, we serve our customers with technologies we have developed in-house.

With our motto "Clean Energy, Seamless Power," we contribute to the world's zero-emission goal by developing and implementing new technologies. In doing so, we support the creation of a more efficient, intelligent, reliable, eco-friendly, and emission-free future accessible to everyone. We prioritize AI integration across all our products and systems to ensure functionality, offering the technologies of tomorrow today.

Our founding purpose is to develop charging technologies for next-generation electric vehicles and to provide energy infrastructure to modern cities through smart energy management systems. From industrial solutions to EV charging systems, from energy transmission and distribution to energy storage, from battery production to solar energy systems — we continue our operations with a wide range of solutions and products, contributing to a sustainable future.

FOTEC VISION & MISSION

Our Vision is not only to observe and interpret developments, but to lead and implement technological advancements, to achieve a zero-emission future for both today and tomorrow, and to become one of the globally leading electric vehicle charging station manufacturers through the software we develop.

Our Mission is to provide global services in accordance with international quality standards and our core principles, with a customer satisfaction-oriented approach, and to digitalize power grids that play a key role in the energy revolution.

TOGETHER, FOR A GREEN FUTURE

Fotec is committed to developing environmentally friendly energy solutions, going beyond the limitations of traditional energy sources, and delivering reliable, sustainable power. Fotec works with you to reduce energy consumption and protect our planet.
